

8th Grade East Coast Expedition

June 18-25, 2022

This once-in-a-lifetime educational experience is open to all current Standley Middle School* 8th grade students. Our off-duty teachers and guides will impart lessons in history, geography and culture as we examine the events and places that have shaped our country and its people. Our tour will take us to important historic and cultural sites in **Boston, New York, Philadelphia, Gettysburg and Washington, DC**. Highlights of our trip will be a Broadway Show, and our rafting trip on the Shenandoah River! This is a weeklong travel experience that will also teach students lessons in responsibility and good decision-making, and help them build self-confidence and maturity as they head into high school.

Informational meeting: **Wednesday, Oct. 6th at 6:00 pm** in the **Standley Library**.

Inside space is limited, so we request that only 1-2 members from each family attend. Students are not required to attend. Everyone at the meeting will be required to adhere to district health and safety guidelines, including the wearing of a mask that covers both nose and mouth. Anyone who chooses not to attend will be able to receive information via email or download after the meeting.

This tour is operated by **World Expeditions of San Diego**, a respected leader in educational student travel since 1997.

** This is an optional, extra-curricular, non-school-sponsored trip as defined by the San Diego Unified School District. Standley Middle and the SDUSD assume no responsibility or liability. Teacher supervisors are off duty and are not functioning as SDUSD employees. Funding is through private/individual payment.*
